### Regulatory Compliance & Permitting

Trying to understand all of the regulations for oil and gas well compliance permitting can be confusing. So why not leave it to the regulatory compliance and permitting professionals at PFS?

Whether you need assistance with all or part of your regulatory work, PFS can help. More companies are outsourcing this time-consuming work so they can focus on the big picture.

Our regulatory team is unsurpassed in the industry, and is managed by professionals who have almost two decades of experience serving oil & gas companies!

#### Benefits of Partnering with PFS:

- Supplement your team of full-time Regulatory staff.
- Avoid any penalties issued to your company through improper and/or incomplete filings.

**PFS will guide and navigate your business through confusing policies and regulatory rules.**
